

Control of Coffee Berry Disease (CBD) & Bacterial Blight of Coffee (BBC)

- Initial stages result in small water soaked lesions that rapidly become dark and sunken.
- These expand causing a rot of the whole berry; under humid conditions, pink spore masses become visible on the lesion surface.
- Berries are shed from the branch at an early stage of the disease.
- Lesions may occur on young berry stalks, causing them to be shed before lesions are evident on the berry itself.
- Pale, corky lesions (scab lesions) also appear on young and mature berries and are resistant reactions to infection.
- The disease also affects ripening berries causing a 'brown blight' phase as typical dark, sunken anthracnose lesions envelop the red berry.

Badeon 50% (Chlorothalonil)

- Has both curative and preventive action.
- Fine Chlorothalonil particles ensuring uniform distribution on the leaf surface.
- Rain-fast; adheres to crop thus less washing off.

Rates: 120-150g/100L
Pack Sizes: 500g

Coffee Berry Diseases (CBD) & Coffee Leaf Rust (CLR)

Cabrio 250 EC

- Cabrio® gives the AgCelence® effect which translates to more yield per bush.
- Excellent control of Coffee Berry Disease (CBD) meaning more yield.
- Prevents premature ripening leading to uniform ripening of berries therefore ease of harvesting.
- Increases the quality of the berries leading to premium coffee hence more money to the farmer.
- Minimizes berry drop leading to high yields.

Rate: 8 ml/ 20 L
Pack Size: 1L

Control of Coffee Thrips & Antestia Bugs

Alpha Cypermethrin

- Easily absorbed in plant tissues and digested by the target pest.
- Quick knock-down effect.

Rate :10ml/20L
Packs: 100ml, 1L

Control of Coffee Berry Borers, Mealybugs

Abamectin

- Highly efficacious against tuber moths.
- Fast knock-down effect on sucking pests.
- Systemic, contact and translaminar properties.

Rate: 20ml/20L
Pack Sizes: 100mls

Bakeshet

- Quick knock down effect.
- Has both contact and systemic action.
- Easily absorbed in plant tissues and digested by target pest.
- Broad spectrum of control.

Rate: 20ml/20L
Pack Sizes: 100mls, 1L
